Dear Ms. Christiansen,

Let me start by thanking you for your letter and for your important work in this area. By joining the Open Government Partnership, Sweden reaffirm its commitment to open government efforts both in principle and in practice. Sweden's Action Plan and engagement will focus on the challenge of More Effectively Managing Public Resources within the area of development cooperation.

I look forward to continuing our exchange on transparency in connection to the publication of Sweden's OGP Action Plan that will make the link and address the further implementation of the IATI. The Action Plan will be presented during the OGP Annual Meeting in April.

Yours sincerely

Gunilla Carlsson
