

U.S. aid transparency: IATI, the Dashboard and OGP

Sally Paxton,
Publish What You Fund U.S. Representative

Aid is a precious resource

To get the most out of it we need more and better aid information. Working with organisations from around the world, we call on donors to publish what they fund.

Publishers

In the publisher list you will see all of those who have set up accounts to publish to the IATI Registry. Where you see zero files against a publisher name, this simply means they have not yet published files and are still in the preparatory stages. The number of publishers highlighted on the homepage of the IATI Registry reflects only those who have published files.

47045-AFG-809-G07-T Consolidating TB Control Activities in line with New Stop TB Strategy

Reporting-org: [ref="47045" type="40"] The Global Fund to Fight AIDS, Tuberculosis and Malaria

ati-identifier: 47045-AFG-809-G07-T

Title: Consolidating TB Control Activities in line with New Stop TB Strategy

Description: [type="1"] Tuberculosis (TB) is considered a public health emergency in Afghanistan. With a prevalence of 231 cases per 100,000 people per year, it is rated as one of 22 countries with the highest burden of TB in the world. The disease primarily affects people in the most productive age group (ages 15-44), and disproportionately affects women who account for 64 percent of all registered cases. The program funded by this grant aims to reduce Afghanistan's TB burden by 2015 by pursuing high quality DOTS expansion and enhancement, addressing challenges related to TB/HIV co-infection and multidrug-resistant TB, engaging all health care providers in the fight against TB through education and training activities and enabling and promoting research to further understand the evolution of the disease in Afghanistan and the best ways to fight it.

Foreign Assistance by Agency

Many U.S. Government agencies fund or implement foreign assistance programs. The Foreign Assistance Dashboard is still in the early stages of development, but every U.S. Government agency receiving or implementing foreign assistance, humanitarian, and/or development funds will eventually be incorporated into the Dashboard. Explore the agencies listed below to learn more about the foreign assistance programs that each agency implements around the world.

THE OPEN GOVERNMENT PARTNERSHIP

NATIONAL ACTION PLAN
FOR THE UNITED STATES
OF AMERICA

SEPTEMBER 20, 2011

49. In keeping with the Open Data Charter principles, transparent data on G8 development assistance are also essential for accountability. We have all agreed to implement the Busan Common Standard on Aid Transparency, including both the Creditor Reporting System of the OECD Development Assistance Committee and the International Aid Transparency Initiative (IATI), by 2015. To show greater G8 leadership we will ensure data on G8 development assistance is open, timely, comprehensive and comparable.
